

School Bus Tracking and Student Monitoring

Gain 24/7 Visibility, Safety, Routing, Maintenance & Control Into The Location And Status of your School Buses & Students

A Complete Solution
One powerful platform to meet all your needs for fleet management & student tracking and safety, Dash Cams and more

Increase Route Visibility
Gain visibility and control over your entire operation, know at all times which students got on each bus and when, know the ETA of every stop.

Uber-Like Parent Portal
Dedicated ParentLink App enables you to offer uber-like service, parents can see real-time bus location, where and when the student boards the bus and receive real-time alerts

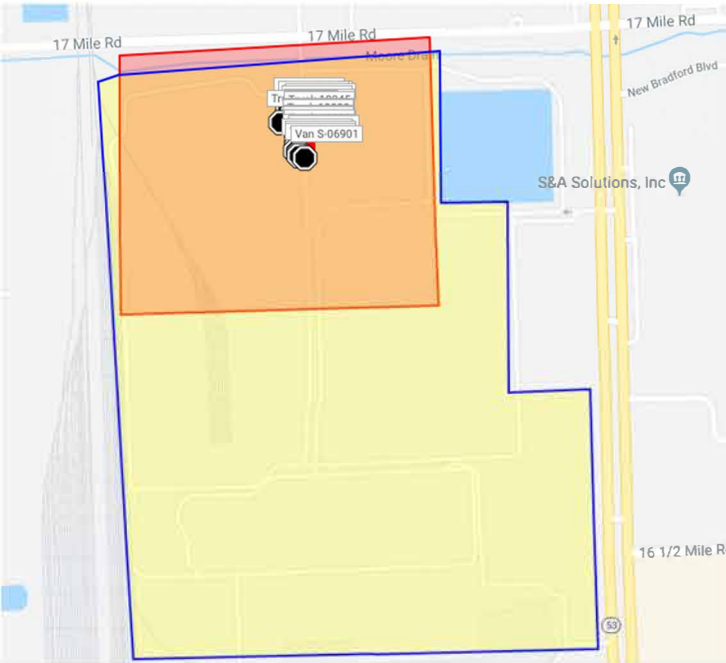

Vehicle	Last Update	Last Address	Sched Start	Route Schedule	Next Stop	Route Progress	Action
308 - Route - AM Bus508	8 hours ago	15163 6th Rd Whitestone NY 11357	05:00 AM		15179 6th Rd Whitestone NY 11357	0.0 mi/12.9 mi (0%) [0.0 MPH]	
398 - Route - AM Bus 598	7 hours ago	527 Hutchinson River Pkwy Bronx NY 10465	06:30 AM		151-17 6 Road New York, NY	0.0 mi/19.4 mi (0%) [0.0 MPH]	
707 - Route - AM Bus707	7 hours ago	Hutchinson River Pkwy Bronx NY10465	05:30 AM		7235 Yellowstone Blvd Forest Hills NY 11375	37.6 mi/8.0 mi (46.8%) [0.0 MPH]	
709 - Route - AM Bus709	7 hours ago	15183 6th Rd Whitestone NY11357	05:47 AM		completed (07:01 AM)	5.1 mi/3.6 mi (141%) [0.0 MPH]	

Powerful, Real-Time View

With Fleet.Net, you have real-time view of every angle of your fleet activity including current status, last & historical location, actual speed vs speed limits, driver behavior, engine diagnostics & real-time cameras.

Speed Limit	Dir.	Last GPS Time	Last Address	Status

Geofence Boundaries

Set a geofence boundary around key locations such as your school zones, operation areas and get alerts when your school buses enter and exit the boundary. You can even set a boundary within a boundary!

Comprehensive Dashboards & Reports

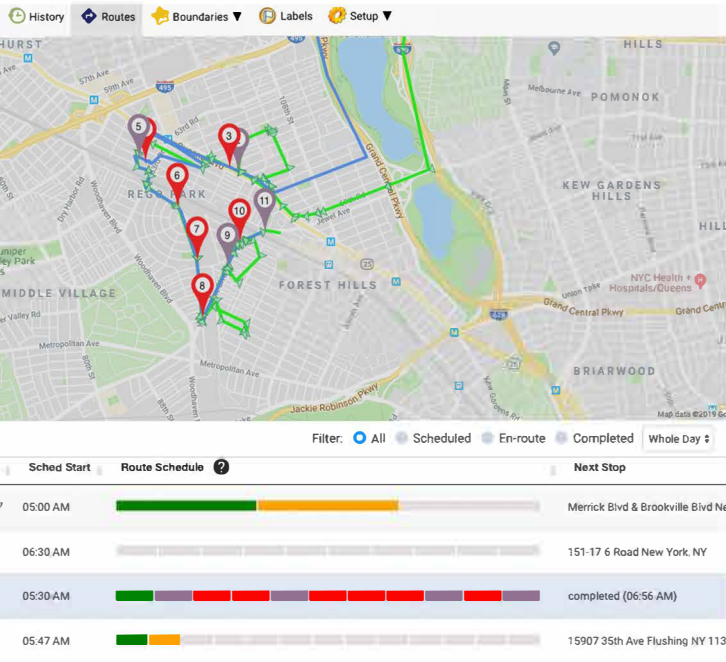

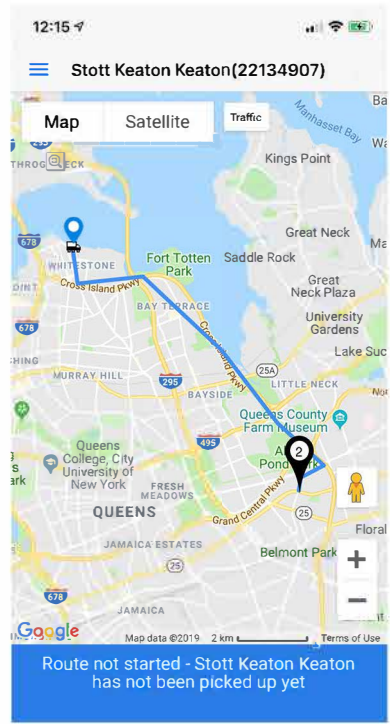

With Fleet.Net's powerful reports, you collect, analyze, and share data for your entire fleet

Keep Parents In The Loop

Dedicated Parent portal app available on both iOS & Android reduces inbound calls by automatically sharing real-time bus location and ETAs with parents and alerting them if buses are running late.

Optimize Route Performance

Easily build routes and measure on-time performance to identify trends in bus delays, bus loads and ridership data to improve route performance. Monitor real-time ETA to every stop.

Student Tracking

Passive or Active RFIDTags associated with every child allow for immediate log of each student, increasing visibility and allowing you to:

- Track attendance
- Account when and where each student got on and off the bus
- Detect unauthorized student boarding

Your Students Have Different Needs We Offer Multiple Solutions

Active RFID BLE Tags For Action Free Student Tracking

Only **3 1/2¢** per day*
per student!

Mini-RFTag
\$19.95 + \$1 mo

up to 30ft

PTX WiFi
\$295.00 + \$29.95 mo

RF Bracelet also monitors temperature.
\$29.95 + \$1 mo

*requires a PTX per bus and/or classroom

A wireless RFTag logs in without touch when and where students get on and off buses – no action is required by the student.

Students are equipped with a small, 1¼" x ¼" sized tag that can be placed in their backpack or attached to their keychain and the student is not required to scan their ID card when boarding or exiting the bus. The Active RFID reader that is integrated inside the PTX Wifi will automatically read the RFTag or bracelet and upload the exact time and address of the pick up/drop off event. The bracelet also alerts the driver and school nurse if the student has a temperature.

Passive RFID/NFC Cards Action Required By Student

Only **3 1/2¢** per day*
per student!

ID card

Passive RFID reader
\$49.95

Model STX
\$169.95 + \$29.95 mo

*requires a PTX per bus and/or classroom

A Model STX with a passive RFID reader is installed in each bus and every student is equipped with a passive RFID card that is also the student ID card. As the students board the bus, they scan their RFID card on the RFID reader at a distance of 1", that data is stored in the STX together with the pick-up location and student ID data. Once the bus starts moving the stored data is sent to the Fleet.Net

DashCam Camera System For Student Visibility & Safety

Fleet.Net Cloud

4G LTE

PTX WiFi
\$295.00

WiFi

Dual-Facing Dash Cam
\$295.00 + \$49.95 mo

Optional Dash Cam Expansions:
Supports up to 2 additional cameras and in-cab monitor

Rear Camera
\$129.95 + \$5 per month

Interior Camera
\$129.95 + \$5 per month

External/Side Cameras
\$129.95 + \$5 per month

In-Cab Monitor
\$149.95

Capture every angle, with around the clock recording and support for up to 4 cameras including a dual facing dash cam, interior and side cameras.

Upload video from multiple cameras triggered by Driver Behavior Events such as sudden brake, sudden acceleration, sharp turns, lane crossing and speeding with the exact time and location and log-in on demand to view real-time video to see what is happening inside your buses.
